

GPS-IEP: Writing High Quality Standards-Based IEPs Workshop for Families

***Presented by: Patricia Gay & Laura Sheets,
State Support Team - Region 10 Consultants***

Parents and families want to play an active role in their child's education. SST 10 is offering a specially designed look at how a standards-based IEP will help in preparing your children for the future.

The Office for Exceptional Children (OEC) at the Ohio Department of Education (ODE) has developed a training called "Going Places with a Standards-Based IEP (GPS-IEP)" to provide assistance and understanding in developing IEPs. Bring a copy of your child's IEP and learn what should be included and how you can be an active participant on the team!

DATE: Saturday, October 22, 2011

TIME: 9:00 a.m. - 1:00 p.m.

LOCATION: Miami Valley Regional Center
4801 Springfield Street
Dayton, OH 45431

COST: FREE

For assistance in registering, more information or questions please contact Kelli Cook, Region 10 - State Support Team at kelli.cook@mcesc.org or (937) 236-9965.

Registrations for the State Support Team - Region 10 professional development trainings must be completed through the Ohio Department of Education (ODE) website in STARS. To access STARS you must set up an individual Secure Application For Enterprise (SAFE account). Please use the following link and follow procedures listed. <https://safe.ode.state.oh.us/porta/>. Click "I am a new SAFE user" or sign in using your already created account name and password. You will then be directed to an application screen where you will click on STARS V2.0. You will then be directed to the STARS Dashboard where you will click on Event Search. That link will direct you to the even search screen where you should search by DATE ONLY.
